## Junior Cybersecurity Analyst Certification

Cyber-attacks increase with every digital connection made around the world. Learn how to protect and defend an organization and gain employable skills to start your cyber career.

### With Billions of Devices Now Online, New Threats Pop-up Every Second

Today's interconnected world makes everyone more susceptible to cyber-attacks. Whether you're attracted to the relatively new world of cybersecurity as a professional, or just interested in protecting yourself online and in social media, this introductory course is the answer. It explores cyber trends, threats—along with the broader topic of cybersecurity in a way that will matter to YOU. For instance, you'll learn how to protect your personal privacy online while gaining additional insight on the challenges companies, and governmental and educational institutions face today. No prerequisites required.

### You'll Learn These Core Skills:

- Learn what cybersecurity is and its potential impact to you.
- Understand the most common threats, attacks and vulnerabilities.
- Gain insights for how businesses protect their operations from attacks.
- Find the latest job trends and why cybersecurity continues to grow.

*Your investment into your future!*

*Cost: \$375.00 per Class and a total cost of \$2,437.50 for certification in a field with entry level salary starting at \$60,000! All classes are taught using CISCO NetAcad by Cyber Security Experts in the field.*

*Final Exam cost, \$125.00 paid by CPA*
